### DETAILED ACTION

1. The reply filed on April 19, 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Amended claims 1-7, 9-11, 14-16, 18-20 and 22-28 and newly presented claims 57 and 58 are drawn to a nonelected invention. The claims are directed to a laser (combination) that includes an iodine injection system. The claims appear to be directed to the non-election invention (Group IV as defined in the Election/Restriction Requirement mailed on October 19, 2005) directed to "a system" as presented in original claims 55 and 56. Election of Group I (subcombination of an iodine injection system) was made without traverse in the reply filed on November 4, 2005. Claim 57 is evidence that the patentability of the combination does not reside in the particulars of the subcombination. The combination as defined by claim 57 does not require an injection strut. The subcombination has separate utility such as for delivering non singlet oxygen. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
